Transport logistics with integrated IT solution for a growing market

JCL Logistics opens a subsidiary in Romania

Graz, 2nd of September 2011. JCL Logistics is extending its network and will from now on be represented with a subsidiary in Romania. JCL is now able to offer high-level, innovative customer solutions at a point in the market which is taking on an ever-greater significance in Europe.

With its specialised employees, JCL Logistics brings the specific transport competence of the industrial branch to the second largest local market in Central and Eastern Europe.

In the future, transport and product-logistic achievements will also be available for B2B and B2C in the retail branch. JCL Logistics is positioning itself in Romania with transport solutions oriented to customer demands in FTL and LTL areas. The Romanian enterprise will co-operate intensively with the JCL branches in Germany, Austria, Switzerland, the Netherlands, and in the future with France and Italy too, thus becoming part of the adaptable and efficient

JCL network, complete with their customer-optimised logistics solutions and minimised interfaces.

JCL Logistics offers an on-site connection of far-reaching transport solutions, together with a comprehensive IT solution. As well as transport solutions to and from Romania for procurement and distribution logistics, the transit potential of the country is also being developed as a gateway for future sea cargo solutions.

About JCL Logistics:

JCL Logistics, with its head office in Graz (Austria), maintains a presence in 25 countries with more than 60 branches and 1,900 employees, with operational activities in the areas of transport and product logistics, as well as in eCommerce.
